

Crisis Action Plan for Yuma Chaplains

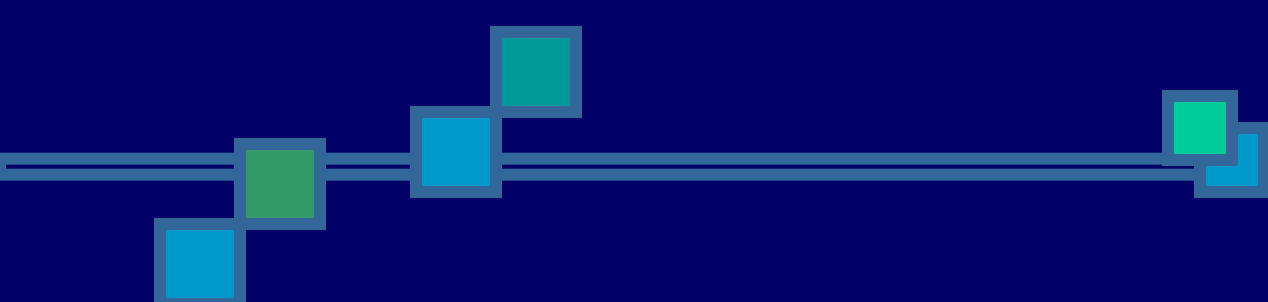

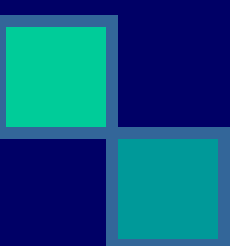

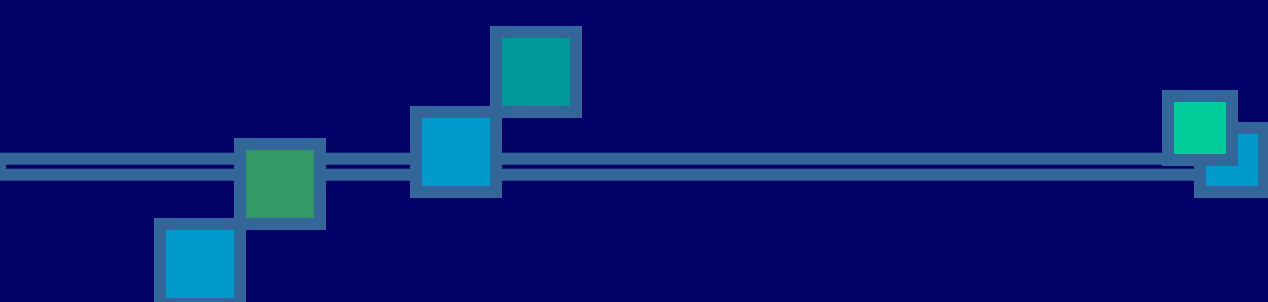

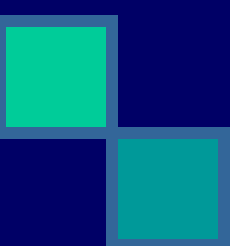

Joint Effort between MCAS Yuma
And Marine Air Group 13

Action Plan

- 
- MCAS Command Chaplain is recalled as a part of EOC.
 - All MCAS and MAG-13 Chaplain's and RP's are recalled by Command Chaplain and report to MCAS Chapel.
 - Command Chaplain secures hand held radio from Chapel and reports to EOC.
 - MAG-13 Command Chaplain assumes role as Evacuation Center Chaplain and secures radio. Chapel complex becomes Primary Evacuation Site.
 - MCAS and MAG-13 Chaplains are dispatched with radios as needed to secondary locations for immediate needs (counseling, last rites, ministry of presence, CISM) by direction of the MCAS Command Chaplain as requested by EOC.
- 

- 
- 
- 
- Chapel is utilized accordingly because of capability and location
 - A. Chapel seats 600 persons and has sound system capability.
 - B. Religious Education Building has 2 rooms designated for care of small children and 8 other classrooms that can be used for temporary offices by agencies such as Red Cross, Navy Relief, MCCS Counselors or NCIS.
 - C. Kitchen and fellowship hall could be used as temporary dining facility. Facility could be expanded into courtyard as necessary.
 - D. Because of close proximity to Branch Medical Building, grounds could be used for triage and staging of less serious wounds.
 - E. Because of close proximity to main gate building, grounds could be used as staging for base evacuation or as a processing point for incoming services.

- 
- 
- 
- Evacuation Center Chaplain provides emergency resources and facilities as requested by EOC as specific needs arise.
 - When directed by EOC Primary Evacuation Center stands down, Chaplains return radios to Chapel and debrief with Command Chaplain.

RMT Coverage Plan for Yuma in MAG Deployment Scenario

- Deployable MAG-13 Chaplains and RP's deploy with MAG
 - - Any non-deployable Chaplains would remain and keep MAG-13 Chaplain's Office open.
 - - If all Chaplains are deployable, but RP's are not, remaining RP's would be moved to MCAS Chapel RMT.
 - MCAS RMT assumes responsibility for any MAG personnel left behind and all MAG dependents.
 - MCAS RMT would request Reserve RMT be activated to augment.
 - - In the case of heavy casualties, additional Reserve RMT's would be requested.
 - - Yuma Proving Ground Army Chaplain and Army Reserve Chaplains in the area could be utilized.
-
